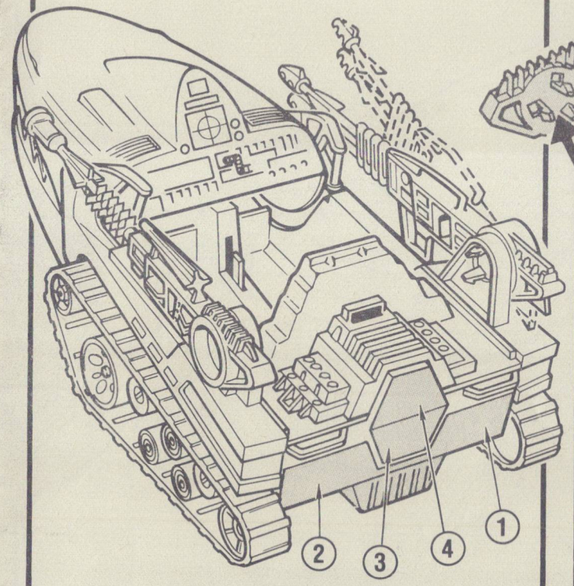
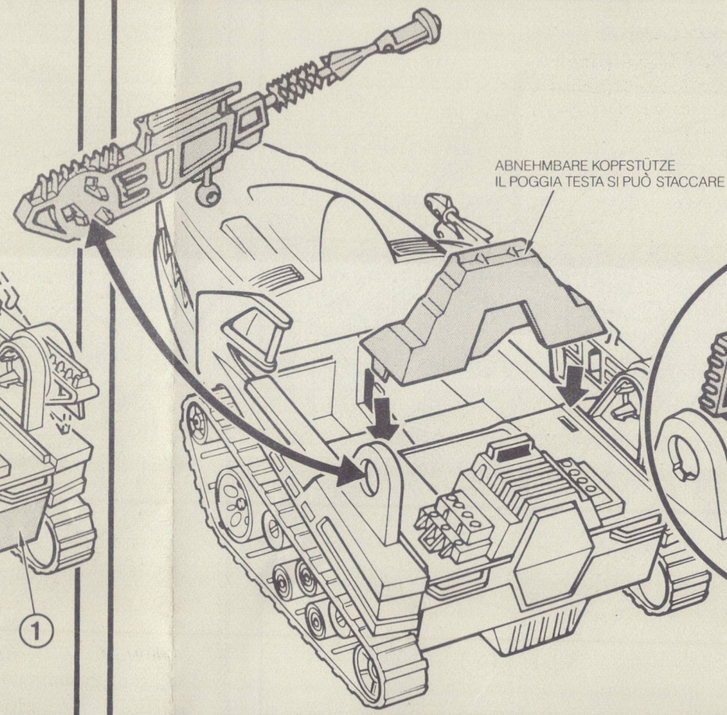
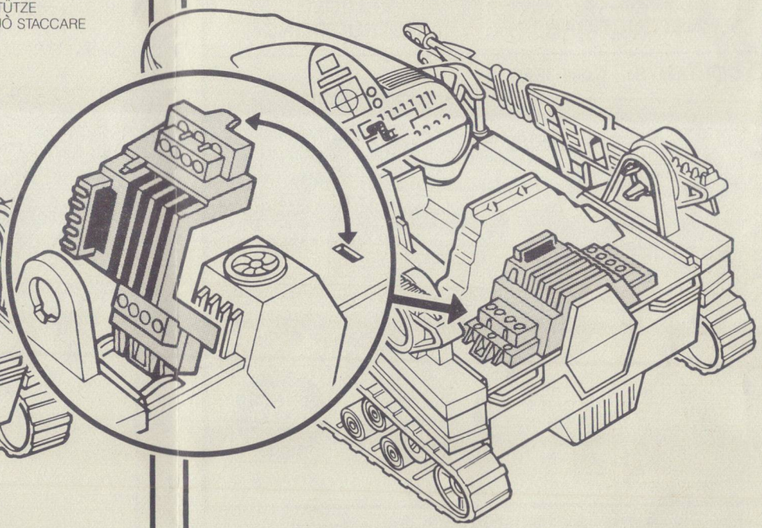
**ABZIEHBILDER AUFKLEBEN**
**APPLICA LE DECALCOMANIE**





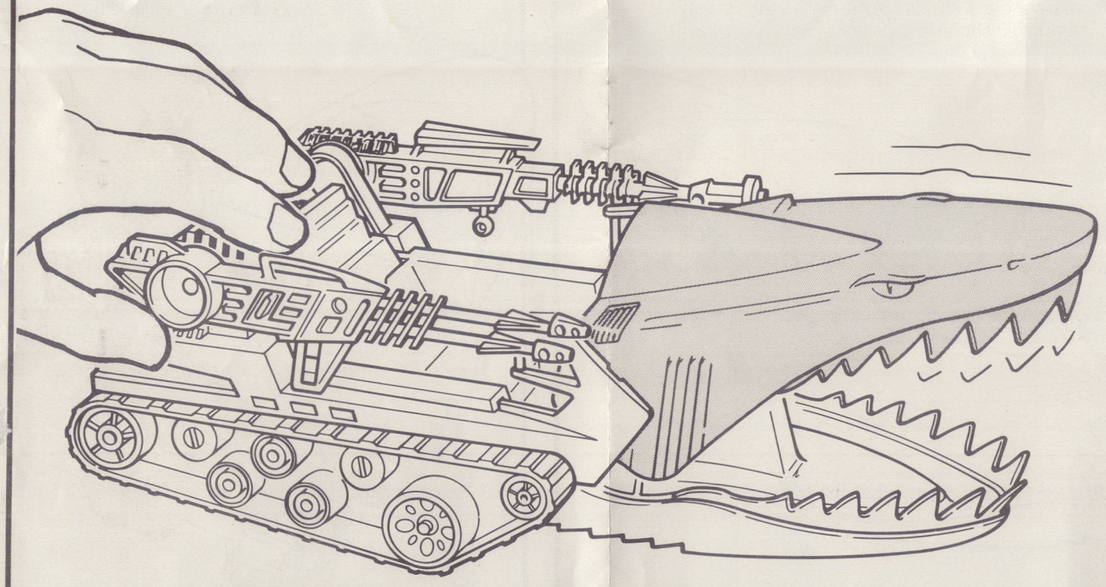
Sollte sich der Motor beim Spielen versehentlich lösen: Einfach wieder andrücken!

Se il motore dovesse spostarsi fuori sede mentre giochi, devi semplicemente farlo scattare in posizione.



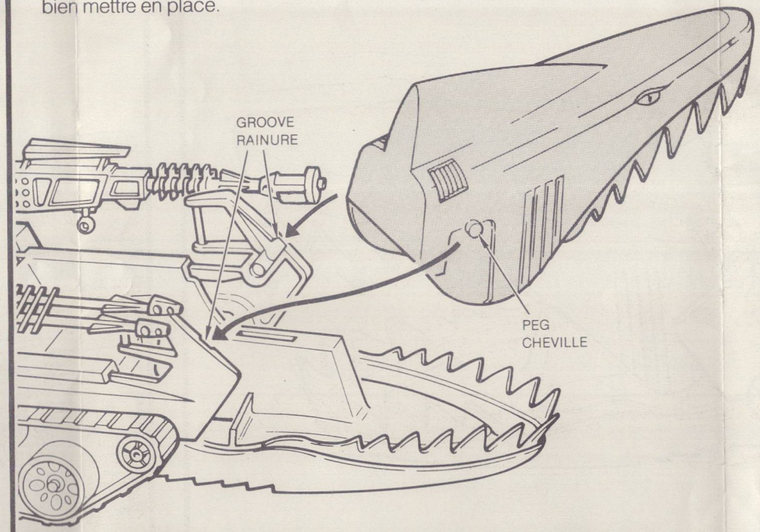
When pushing vehicle forward, pressing down on rear will cause mouth to open and close.

Lorsque tu pousses le véhicule en avant, appuie sur l'arrière pour lui faire ouvrir et fermer les mâchoires.



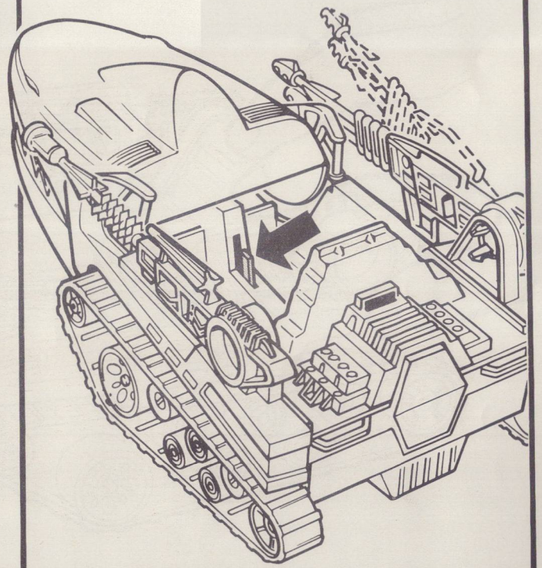
If head should accidentally come off while you are playing, line up pegs on outside of head with grooves in vehicle. Push down until it snaps in place.

Si la tête se détache, insère les chevilles, qui se trouvent sur les côtés de la tête, dans les rainures prévues sur le corps de Mygalor. Appuie pour bien mettre en place.



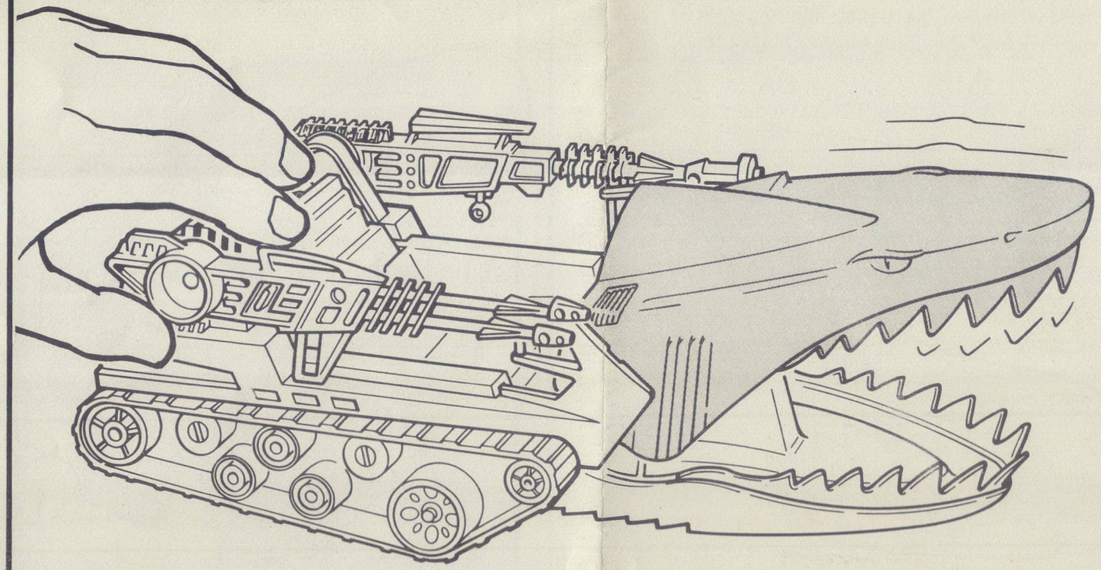
Push lever to open mouth from inside.

Pousse le levier pour ouvrir les mâchoires de l'intérieur.



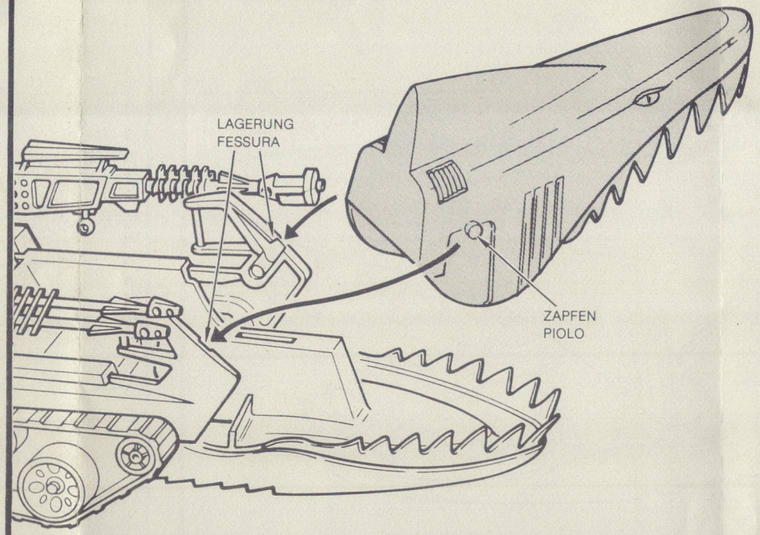
Betätigung des Haifischmauls: Beim Vorwärtsschieben hinten auf das Fahrzeug drücken.

Mentre spingi il veicolo in avanti, se premi la parte posteriore, la bocca si aprirà e si chiuderà.



Falls sich der Kopf beim Spielen lösen sollte: Die Zapfen am Kopf in die Lagerungen am Fahrzeug lagen und bis zum Einschnappen nach unten drücken.

Se la testa dovesse staccarsi per caso, allinea i piolini (sulla testa stessa) alle fessure del veicolo. Premi in giù finchè la testa non scatti in posizione.



Habel nach vorn drücken: Betätigung des Rachens vom Cockpit aus.

Spingi la leva per aprire la bocca dall'interno.
